4 Second Payment

Second stage payment must be made at least one week before your installation date to allow fitting to go ahead – the amount to be paid should be on your contract.

5 Fitting Preparation

Before we attend your home we ask that all blinds/curtains are removed and all furniture has been moved away from the work area/s. Turkington's fitting teams are not allowed to relocate or remove any electrical wires such as door alarms or doorbells so we do ask that items such as these be removed / relocated before our team attend.

6 Working in Your Home

When in your home we will ensure that protective sheeting is laid over carpet/flooring to prevent any damage. If you have children in your home we would ask that they are supervised at all times and kept away from the work area/s for their safety. We also ask that any pets in the property be kept in a suitable area.

We always aim to complete the fitting within the specified time scale however we may need to return at a later date should further work be required. The fitting team will discuss this with you if necessary. Once work is complete the fitting team will ensure all work materials are cleared away and the work areas left tidy.

7 Work Completed

Once the work has been completed our fitters will request your final 5% payment.

If you choose however to pay by card we ask that you contact our main office to have this processed. Should you have any queries or concerns at this stage please don't hesitate to contact our Windows Division Customer Service Team.
