## Windows & Conservatories

Quality, Service & Value... Guaranteed

Established 1951

*"We are very proud of our reputation for providing a quality all round service – from sales, through installation and after sales we try to ensure every customer's experience is excellent."*

Cary Hindman, Turkington Windows & Conservatories

## Peace of Mind... Guaranteed

Investing in your home is a major decision – you can trust Turkington to provide Quality, Service and Value... both today and in the future. Turkington have been in business for over 60 years and offer a ten year written guarantee with the added security of knowing you are dealing with Northern Ireland's most reputable and longest established window company.

## Recommendation

At Turkington we know the value of excellent service. Over 97% of our customers are so pleased with our product and service that they are happy to recommend us to family and friends. Quality and service pay... we get more enquiries and new business from referrals than by any other method.

## Independently Approved

We are accredited by and are members of the Glass & Glazing Federation (GGF), a government approved organisation which promotes good standards in all areas and also helps protect consumers through the GGF Code of Practice. Turkington are accredited through Investors in People and the British Standards Institute.

## Installation and Customer Service

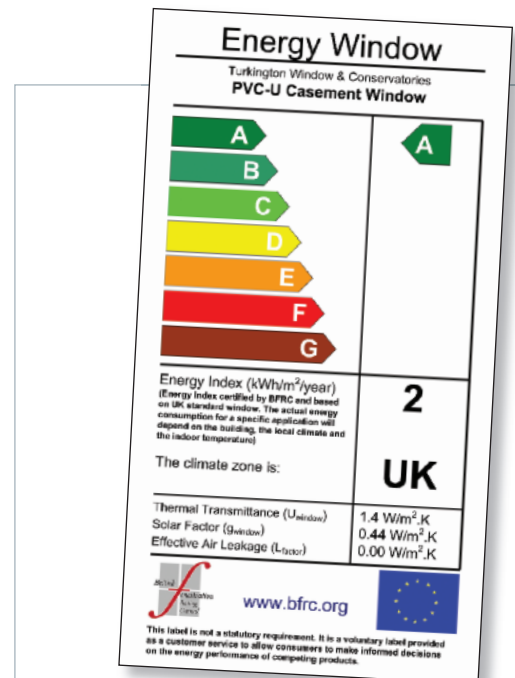

We plan each job to ensure minimum disruption to your home whilst maintaining the highest possible quality standards. Customers are contacted regularly and kept well informed. Turkington use the very best installation teams who have many years experience working in customers' homes. Our standard method of fitting replacement windows is to use both fixing bolts and fixing foam to give the most secure and energy efficient installation possible, we also install a small cover trim which means in the majority of cases there is no requirement for any remedial decorating. Our fitting teams will leave your home clean and tidy and always go the extra mile to ensure a quality job. If any problems arise during your ten year guarantee period rest assured we have a dedicated team who will quickly and efficiently deal with any issues.

## Accredited Environmental Systems and Policies

At Turkington, we continuously strive to improve our environmental performance and reduce our carbon footprint. Our environmental management systems have achieved the widely recognised ISO14001 accreditation. Our environmental policy commits us to ongoing improvements that will help to reduce carbon emissions from transport and energy use. We aim to improve energy efficiency within our business and offer more energy efficient products to our customers, as well as further reducing waste and promoting recycling in all areas of our business.

Turkington Windows are committed to working towards a sustainable working environment, ensuring that every aspect of our business is conducted in accordance with sound environmental practices.

We recycle all waste manufacturing materials. Turkington also recycle and/or sustainably dispose of windows and doors that we remove from customers' homes.

Double glazed 'A' Rated energy label.

## Windows – advanced design for superior performance

### Safety and Security

Our windows are 'Secured by Design' approved – we use high security hinges, hinge bolts and multi-point shootbolt locking. Turkington Windows are reinforced with galvanised steel section where required and also come with a FREE security guarantee through the Maco Secure Scheme. All windows and doors are internally glazed, meaning glass cannot be removed from outside.

### Enhanced Aesthetics for the Ultimate Appearance

As well as providing the peak in energy and security performance our windows and doors are designed to look great now and in the future. We have a full range of colour and woodgrain finishes available, in both our sculptured Ovolo or contemporary Chamfered styles. Turkington... windows to suit every home or project!

### Styles and Options

Turkington design and install a variety of windows to meet every need. All windows are designed specifically for you. Whilst there are specific window types there are no set designs, we create windows to match your needs. Window types include:

- Casement Windows
- Sliding Sash Windows
- French Windows
- Bay & Bow Windows
- Tilt & Turn Windows
- Arched Windows
- Angled Frames

### Hardware Options

Window and door handles are available in a range of standard colour options: White, Black, Gold, Chrome and Satin Silver.

## Energy Saving Performance

We offer an excellent range of energy saving windows. Our double glazed argon filled windows come with warm edge technology and are 'A' Rated as standard delivering savings of up to 28% on home heating bills.

We also offer triple glazed options for the ultimate in home comfort and energy performance. Our windows will actually add heat and energy to your home, saving you money on fuel whilst being kind to the environment both now and for many years to come.

## A Guide to Window Energy Ratings

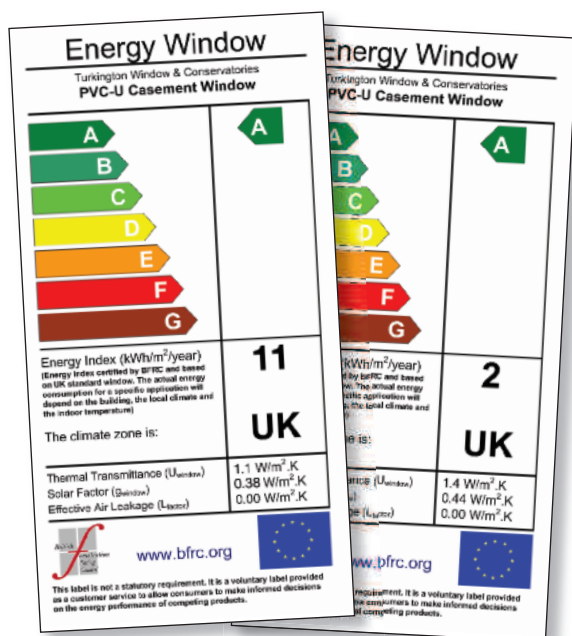

Window Energy Ratings are a simple, clear and easy to understand method of informing customers of the relative energy efficiency of a particular window. The windows are rated on an 'A' to 'G' scale, which is consistent with other products such as light bulbs and white goods.

### How are they calculated?

The rating is determined by a formula which takes into account various factors:

- Standard Domestic Occupancy
- Climate Data
- Thermal Transmittance (Window U Value)
- Solar Factor (G Value)
- Air Leakage (L Value)

Each of the above factors has an effect on the overall energy performance of the window.

Warmth, style and security.

Experts in replacement and new build windows.

*"On time, very helpful, polite and the fitters work was very clean and tidy. I was very impressed with all the staff and work carried out. Thank you."*

L Wilson, Bangor ~ February 2013

## Fascia and Soffit

Turkington use only quality products and experienced installation teams. We have built an outstanding reputation for quality, service and value and get most of our new customers through referral and recommendation.

Our range of fascias and soffits are low maintenance, long lasting, recyclable and come in a variety of styles and colours to suit your home.

A simple transformation, but one which adds value, and offers low maintenance.

- 10 year guarantee
- Professional experienced installers
- 97% customer satisfaction rating
- All timbers inspected
- Free survey and quotation
- Excellent after sales service

We have a ten year guarantee both from Turkington and from the manufacturer against discoloration and warping. We use high quality Deepplas cellular products.

At Turkington we believe if a job is worth doing, then it's worth doing right. As well as dramatically enhancing the cosmetic appearance of your Fascia and Soffit, we will also install as standard an eaves protection system. This system ensures the long term structure of your roofline and gives added peace of mind in the years ahead.

## Composite Doors – create the perfect entrance

Composite doors give the appearance and feel of solid timber but with the added stability, energy efficiency and durability of modern materials.

The Apeer composite door uses the latest in locking technology and is 'Secured by Design' approved. Steel dog bolts secure the door to the reinforced frame, while the kite mark approved locks give you complete peace of mind.

Made from fibreglass (GRP) and high-density polyurethane materials with an extremely efficient draught excluding double rebate – the Apeer70 door achieves an 'A' rating for energy efficiency.

Apeer composite doors come in a range of colours and styles and with a variety of glazing options to ensure you create the perfect entrance to your home.

## Patio and Bi-folding Doors – bring the outside in

Transform your home; living room, bedroom, kitchen, conservatory... the choice is yours.

Turkington offer a choice of sliding patio doors, french doors, lift and slide doors and bi-folding doors in either PVC or Aluminium.

Sliding patio doors are an elegant choice allowing you to fully utilise internal space whilst maintaining a striking appearance with a minimum of framing – aesthetically pleasing they make maximum use of light and space in your home.

Bi-folding doors are becoming increasingly popular for modern living, many home extensions and new builds now incorporate bi-folding doors within their design. Fold the doors back to give a stunning opening that brings the outside in.

Sliding doors and lift and slide doors are available with a multi-track option, allowing multiple panes to slide to one side maximising the opening.

PVC sliding and bi-folding doors are available in our standard colours, all aluminium doors are available in any standard RAL colour.

## Conservatories and Sun Lounges

Contemporary or classical. Large or compact. Ornate or minimalist. Whatever type of conservatory, sun lounge or orangery you dream of, we will have a style to suit. Our conservatories are available in a wide range of shapes, colours and sizes. There are also numerous glazing options and an array of different doors and windows for you to choose from. Through a combination of these components, we can create a home extension that complements your property and its surroundings.

All Turkington home extensions are bespoke designed on your behalf. We use the latest presentation and design software to let you see exactly how your new conservatory could look – we can tailor the design to create a home extension that is unique to you.
